ONESOURCE University Training Catalog
Training & Certification for Implementers
2023
Welcome
d
Welcome to our ONESOURCE University Training catalog for Implementers!

Here at ONESOURCE University we are passionate about training and the belief in supporting our implementation partners in providing a first-class service to our customers. We are continuously seeking ways to enhance your training experience so you can easily find the training you need to successfully implement ONESOURCE solutions.

In this catalog you will find a wealth of information including optional and recommended training, topics covered, and how to prepare for the certification exams to gain Implementer status. We have included a comprehensive list of the courses and relevant exams by product. Use the menu on the right to jump to the required page. Can’t find what you are looking for? Have a suggestion on a new course or certification? If so, please let us know! We love receiving feedback directly from our valued Clients and Partners!

We are all faced with constant change. Whether that change stems from product changes or changes within tax and regulatory compliance, at ONESOURCE University, we support and keep pace with that change. The traditional “one and done” training model is not an effective training program. Successful training programs use both instructor-led and eLearning delivery methods with a focus on interactive, real-life, and engaging content. We want to ensure you are fully prepared to implement ONESOURCE solutions for your customers. This blended approach not only uses the most effective delivery types, but it is also flexible and can be tailored to each user’s needs, existing experience and learning preferences. We fully support a blended learning approach. Our experienced designers and experts use this approach to ensure our training content is timely, accessible, and relevant so you can continue to grow your ONESOURCE product knowledge and expertise.

Thanks for being a ONESOURCE Implementer! We hope to see you soon at ONESOURCE University! Welcome to our Corporates Training Team, ONESOURCE University Implementer Training Catalog.

DEANNA MCDONALD
Senior Director, Professional Services
Corporates Training Team
Who we are; what we do

ONESOURCE University provides product training and certification programs that empower our partners to become successful implementers of ONESOURCE solutions.

We know for a fact training is a critical success factor for software implementation, support and in maintaining ongoing proficiency. Inspired by this motto, every day our team of more than 30 tax experts, implementers and learning professionals come together to design and deliver training programs that help our partners successfully and efficiently implement ONESOURCE solutions for their clients’ tax departments.

At ONESOURCE University, we know that learners learn by doing and courses contain a high degree of hands-on exercises. Our implementer workshops are also specifically designed to highlight the challenges faced by individual implementers, and we concentrate on discussing these challenges and what contributes to a successful implementations, providing a greater depth of knowledge and understanding of our solutions.

We strive to empower all ONESOURCE implementers to be both proficient and efficient with implementing our products, to create solutions that truly meet the needs of their clients.

In our modern ONESOURCE University online learning platform, you’ll find user and implementer training resources on a wide variety of ONESOURCE tax products, with learning available in multiple formats (on-demand eLearning, videos, instructor-led training).
From online self-study to live remote classes and face-to-face training, from basic to advanced User and Implementer specific topics – ONESOURCE University has you covered!

We understand that ONESOURCE Implementers have unique training needs and different learning styles. To meet the needs of our valued Partners, the ONESOURCE University training curricula are designed with modern learning methodologies and brought to you in different delivery methods that are available as stand-alone courses or combined in blended learning programs for a flexible and optimal learning experience.

**TRAINING FORMATS**

<td>1-hour live remote classes ranging from targeted areas of an application to new functionalities and features, conducted by ONESOURCE University expert trainers and strategically timed throughout the year for when it matters most. CPE included.</td>
</tr>
<tr>
<td>Workshop</td>
<td>University-style classes either face-to-face or remote that gives you the opportunity to interact with other customers as you learn through scenario-based, hands-on exercises. CPE included.</td>
</tr>
<tr>
<td>Dedicated</td>
<td>Either face-to-face or remote group classes exclusively delivered to your company, with hands-on exercises facilitated by an expert ONESOURCE University trainer. CPE included.</td>
</tr>
<tr>
<td>Certification</td>
<td>Role-based certification exams that allow users to demonstrate a recognized level of competency within a ONESOURCE product and showcase their expertise in the marketplace with digital badges.</td>
</tr>
</tbody>
</table>

A product-specific Implementer certification path ensures your clients know they will receive superior implementation and consulting services.

Typical Implementation training starts with gaining and proving a thorough understanding of product configuration before learning the specific processes and tasks of implementation. A final on-line exam allows an Implementer to demonstrate a competence in using standard implementation methods to configure the product and guide strategic client decisions about configuration options.
What do our courses look like?

INTERACTIVE ELEARNING

Video-style and interactive eLearning courses with product demonstrations, simulations, knowledge checks and other learning strategies for self-study.

**Note:** There are more than 40 free course modules available to sample and complete in the ONESOURCE University – just register an account for free in ONESOURCE University.

INSTRUCTOR-LED TRAINING

Remote and face-to-face training with ONESOURCE University expert instructors featuring personalized learning, in-depth discussions, implementation scenarios and plenty of hands-on practice exercises.
Gaining Implementer Certification

Gaining Implementer status validates your ability to enable your clients to achieve their next level of software automation.

We understand that ONESOURCE Implementers have varying levels of existing experience, so gaining our Implementer status requires demonstrating knowledge of the product as well as implementation requirements and practices by passing a single on-line exam. Implementer exams test that you:

- Can perform bespoke configurations to meet your clients’ needs
- Are experienced in working with customers to understand their requirements and objectives
- Are competent in using standard implementation methods and tools to set up and configure ONESOURCE products
- Can make strategic decisions about system configuration to optimize the application in different situations

To best prepare for the Implementer exam, there are curricula and learning paths that provide recommended training as well as optional modules to meet the varied needs of individual implementers.
